PROFESSIONAL EXPERIENCE

Stripes / 7-Eleven — Store Leader

Lubbock, TX | July 2024 – Present

Relocated to Texas to support partner's graduate program; transitioned from multi-unit district oversight to hands-on store leadership.

- Led store remodels and re-merchandising projects supporting 7-Eleven's acquisition and rebranding of Stripes locations.
- Managed store closures and divestitures of underperforming units.
- Turned around multiple struggling locations, improving profitability and strengthening operational controls.
- Managing food cost across both prepared/restaurant items and packaged bakery goods, building on a track record of holding food cost at ~2% in prior roles.
- Utilizing the PDI platform for fuel and convenience-store inventory management.

Dunkin' — District Manager

Gainesville, FL | September 2023 – July 2024

- Directed training and development for General Managers, Shift Leads, and front-line staff across six locations.
- Managed all aspects of store operations — scheduling, standards enforcement, truck orders, and merchandising — for locations generating \$10K–\$50K in weekly revenue, using Aloha POS and Dunkin's browser-based operations platform.
- Delivered Baskin-Robbins brand standards training for combo store locations.

Checkers Drive-In Restaurants Inc. — District Manager

North Central Florida | August 2014 – September 2023

- Led multi-unit operations across up to 8 locations over a 9-year tenure.
- Maintained food cost at approximately 2% across managed locations, consistently outperforming industry benchmarks.
- Built and developed internal talent pipelines, including hiring, training, and promoting employees from shift lead to General Manager, and one crew member directly to General Manager.
- Recruited and onboarded staff using E-Verify; built training programs combining in-person and tablet-based platforms.
- Partnered with General Managers on sales forecasting, inventory control, and scheduling, using Aloha POS and SMART Connect.
- Rolled out new kitchen layouts regionally and contributed to company-wide product testing initiatives.
